### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Laut on 9/22/05.

The application has been amended as follows:

In claim 26, line 3, after "slot", changed "into which" to --to insert--, and after "escutcheon", inserted a comma --,.--.

2. The following is an examiner's statement of reasons for allowance: Applicant's arguments on pages 1-2 of the remarks regarding the deficiencies of the Braginetz patent are persuasive. It is agreed that Braginetz does not teach one of the operating members being operable to retain the lock beak in the first latched position. It is further noted that the previously cited patents to Tucker, Wartian and Tanaka also fail to teach this limitation in combination with the other recited limitations such as having the hook engage the lock beak within the lock body. Accordingly, claims 1-26 are allowable over the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
